Over 100	Over 45.4 kg	4-7/8 cups plus 3/8 cup for each 10 lbs of body weight over 100 lbs	510 g plus 39 g for each 4.5 kg of body weight over 45.4 kg

USE ONLY AS DIRECTED BY YOUR VETERINARIAN

For additional information about this diet, consult your veterinarian.

Using a standard 8 oz/250 ml measuring cup which contains approximately 104 g of EN Gastroenteric Canine Formula.

The above feeding program is recommended as a guideline only, with discretionary clinical adjustments for proper weight maintenance. With your veterinarian's approval, offer increasing amounts of the new food with decreasing amounts of the old food.

PUPPY FEEDING INSTRUCTIONS

Feed your puppies all of the food they will consume, up to twice the amount of adult dogs, at intervals throughout the day. The food intake required to maintain ideal body condition may vary depending on age, activity and environment. Consequently, the amount of food required for each dog will vary and should be adjusted accordingly.

Provide adequate fresh water in a clean container for your dog daily. For your pet's health, see your veterinarian regularly.

Your veterinarian has recommended this feeding schedule for your dog's special needs.

_____ cups _____ times a day

This bag contains approximately ____ cups of food.

6 lb = 26 cups

16.5 lb = 71 cups
